North Platte Valley and South Goshen Conservation Districts

## District Manager Roundup

by Jamie Phipps District Manager

Spring in Wyoming is upon us here at North Platte Valley and South Goshen, and we are welcoming all that comes with it here at the office. March kicked us off with National Agriculture Day on March 19th. This time of year producers are busy bringing new life into our area, whether through calving or by prepping and planting fields for this year's crop. This celebration gives us here at the district an opportunity to recognize that our Goshen County area farmers and ranchers are the best conservationists of the land and we thank you.

Spring at the district also means that our Tree Program is in full swing. Pre-order trees are beginning to arrive daily and the crew is busy sorting, wrapping and passing out orders. We have two Tree Crew re-hires eager to start planting wind breaks, in total we have around 26 plantings. We are also planning an Overstock Public Tree Sale at the end of the season.

The calendar is filling up with constituents renting the Great Plains Drill, the Woods Super Seeder and the South Goshen Gopher Eliminator, if you have interest in renting equipment please call the office so we can get you scheduled in.

This time of year, your board supervisors are hard at work forming this coming year's budget, this includes future programs the districts are wanting to add or retire. The budget process begins in May and ends in July.

As always if you have any questions about our programs please call or visit our office, or visit our Facebook pages and our website [www.conservegoshen.com](http://www.conservegoshen.com).
